Dear Principal Secretary Sir,  
Greetings!!!

My name is Vijay Kumar and I'm from DigitalFort Technologies, Bangalore. I had the privilege of attending your meeting on 15th February 2020 at Hotel Maurya in Patna.

Having spent my time at NIT Warangal, IIIT-Bangalore, ISB Hyderabad, Wharton and Kellogg, I believe that our methodical approach over 2-3 years would bring in real grass root transformation across Bihar colleges. These efforts would not only drive employability and internship but would also boost the entrepreneurial ecosystem and innovation, something amiss today. A transformation of such scale would ensure ample availability of local talent that would entice industry to eventually locate to Bihar and contribute to Bihar's growth.

As per my understanding, I am happy to share with you our detailed proposal to strategically train and eventually transform students across Bihar. However, my plan is flexible and I am open for a discussion and for a modification to our proposal, should you/your team feel so.

I look forward to present and discuss my proposal with you. Please do advice a convenient time to meet you at Patna over the coming days.

Thanking you.

Best Regards,  
Vijay Kumar

Dear Vijay Kuamr Sir,

Subsequent to our telephonic discussion and the proposal you sent to the Department of Science and Technology, we will have move further to impart the knowledge of Advonced technologies like Block Chain, Data Science, Augmented Reality, Virtual Reality, Cyber Security and Ethical Hacking etc., for our Faculty and students of Govt. Engineering & Polytechnic colleges in Bihar. As we discussed in the morning regarding the free webinar on above said technologies whcih you agreed to deliver has to arrang in the first week of June. I discussed about the same with Additional Chief secretary sir and Director sir and took the permission for the dates so they suggested 1st week of june - 2020, so it is better for us arrange this either on 03-06-2020 or 04-06-2020. Kindly design your for those dates and let me know further.
